Fire Safety Journal **20** (1993) 390–391

CONTENTS OF VOLUME 20

Number 1

Toxic Hazard from Fires: A Simple Assessment Method 1
VYTENIS BABRAUSKAS (USA)

Advances in Assessment Methods for Fire Safety 15
ROBERT BRADY WILLIAMSON & NICHOLAS A. DEMBSEY (USA)

Modelling of Heat and Mass Transfer in Wood Structures During Fire 39
BERTIL FREDLUND (Sweden)

Estimation of Optimal Safety Levels 71
S. J. MELINEK (UK)

The Distribution of Fire Load 83
S. J. MELINEK (UK)

Calendar 89

Number 2

A Mathematical Model for Calculating Heat Release Rate in the Room Corner Test 93
BJÖRN KARLSSON (Sweden)

Using Calorimeter Data and a Zone Model to Predict Smoke Obscuration in Room Fires—A Parametric Study 115
P. D GANDHI (USA)

Evaluation of the Fire Resistance of Compression Members Using Mathematical Models 135
T. T. LIE & M. CHABOT (Canada)

Modeling Fire Behavior in an Enclosure with a Ceiling Vent 151
CHEOK-FAH THAN (Malaysia) & BRIAN J. SAVILONIS (USA)

Short Communication

A Unified Fire Property Data Correlation Scheme for Combustibles Burning under Different Ventilation/Oxygen Concentration Conditions 175
HONG-ZENG YU (USA)

News Item 183

Calendar 187

Fire Safety Journal (**20**) (1993)—© 1993 Elsevier Science Publishers Ltd, England.
Printed in Northern Ireland

Number 3

Studies on Evolved Gases and Smoke Generated by Flame-Retarded Phosphorylated Cellulosics 189
B. K. KANDOLA, M. AKALIN, A. R. HORROCKS (UK), H. L. BHATNAGAR (India) & D. PRICE (UK)

Effects of Sample Mounting on Flammability Properties of Intumescent Polymers 203
T. KASHIWAGI & T. G. CLEARY (USA)

Numerical Simulation of Actual Delivered Density (ADD) Measurements . . . 227
R. G. BILL, JR (USA)

Fire Protection: Water Curtains 241
A. COPPALLE, D. NEDELKA & B. BAUER (France)

Toxic Gases from House Fires Involving Natural and Synthetic Polymers under Various Conditions 257
T. MORIKAWA, E. YANAI, T. OKADA, T. WATANABE & Y. SATO (Japan)

Potential Value of Sprinklers in Reducing Fire Casualties 275
S. J. MELINEK (UK)

Short Communication
Comparisons between Plume Theories 289
P. H. THOMAS (UK)

Book Review 293

Calendar 296

Number 4

Smoke Yields from Turbulent Buoyant Jet Flames 299
M. A. DELICHATSIOS (USA)

A Simulation Model for Fire Growth on Materials Subject to a Room-Corner Test 313
J. G. QUINTIERE (USA)

Smoke Generation—Developments in International Test Methods and Use of Data for Selection of Materials and Products 341
P. J. BRIGGS (UK)

The Application of BS5950: Part 8 on Fire Limit State Design to the Performance of 'Old' Structural Mild Steels 353
B. R. KIRBY (UK)

Short Communication
Experimental Study on Oscillating Behaviour in a Small-Scale Compartment Fire 377
K. I. KIM, H. OHTANI & Y. UEHARA (Japan)

Announcement 385

Calendar 386
